

# Microsoft® Excel 2016 Level 2

## Course Description:

In Microsoft Office Excel 2016 Level 1, you created, edited, formatted, and printed basic spreadsheets. You now have a need to streamline repetitive tasks and display spreadsheet data in more visually effective ways. In this course, you will use Microsoft Office Excel 2016 to streamline and enhance your spreadsheets with templates, charts, graphics, and formulas.

**Duration:** Instructor-led, group-paced, classroom-delivery learning model with structured hands on activities – 7 hours (1 day)

**Course Objectives:** To learn to use tables, charts, graphics, and formulas using Microsoft Office Excel 2016.

## Upon successful completion of this course, students will be able to:

- Calculate with advanced formulas
- Create Excel tables
- Create and use named ranges
- Create formulas that reference other worksheets or workbooks
- Manage worksheets
- Create and modify charts

**Prerequisite:** Excel Level 1 or comparable Excel experience.

## Course Outline
